

Task 1: Square Crop (Instagram 1:1)

- I used the Crop Tool with a 1:1 aspect ratio to create a square image suitable for Instagram posting.

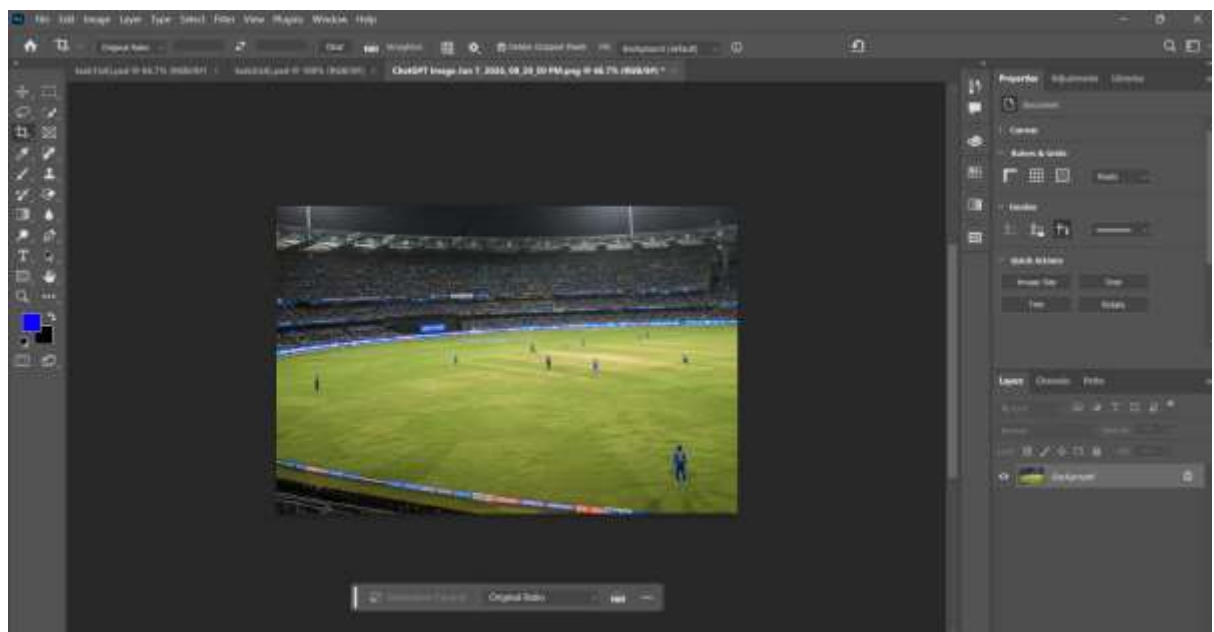

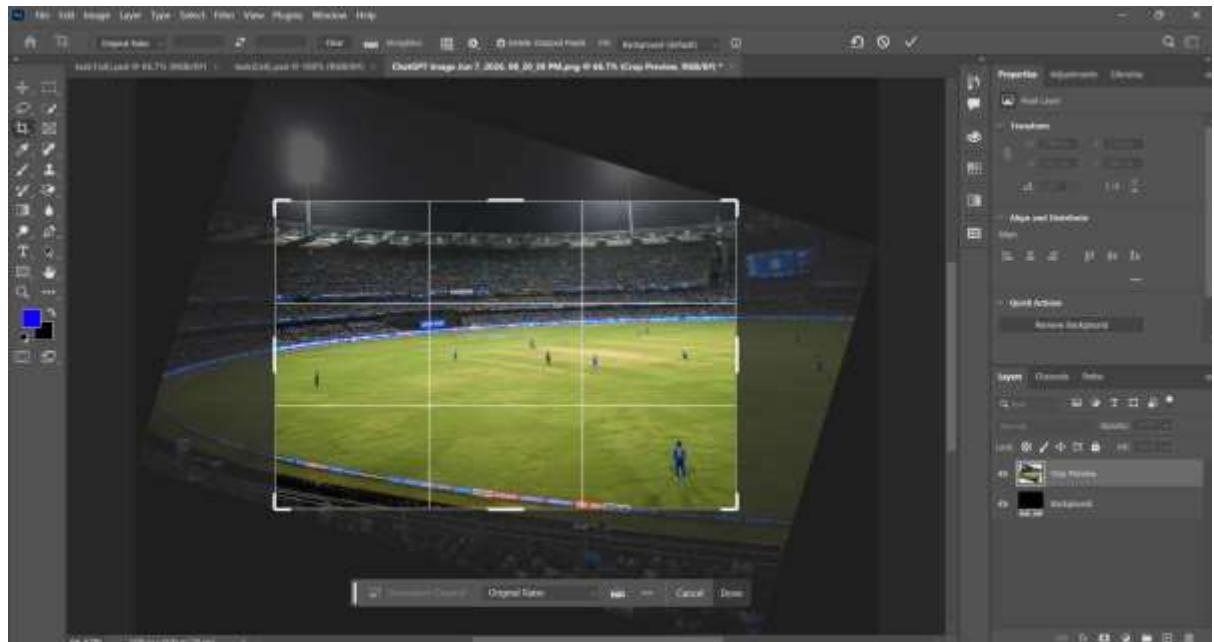

Task 2: Perspective Crop Tool

- I used the Perspective Crop Tool to correct skew and make the product appear straight and front-facing.

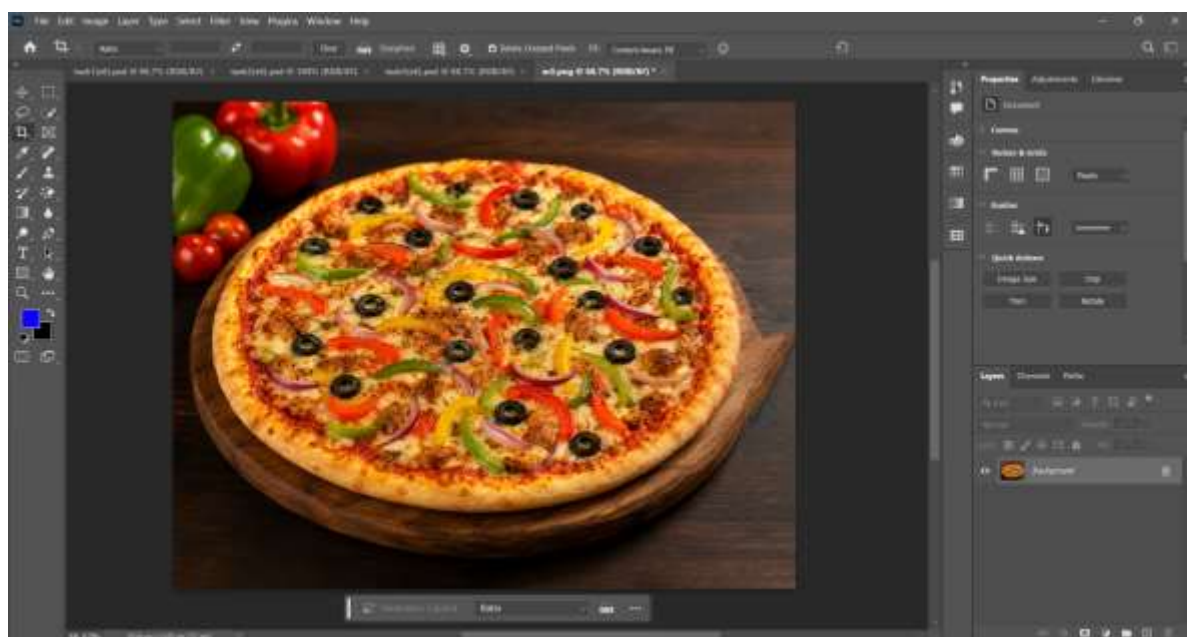

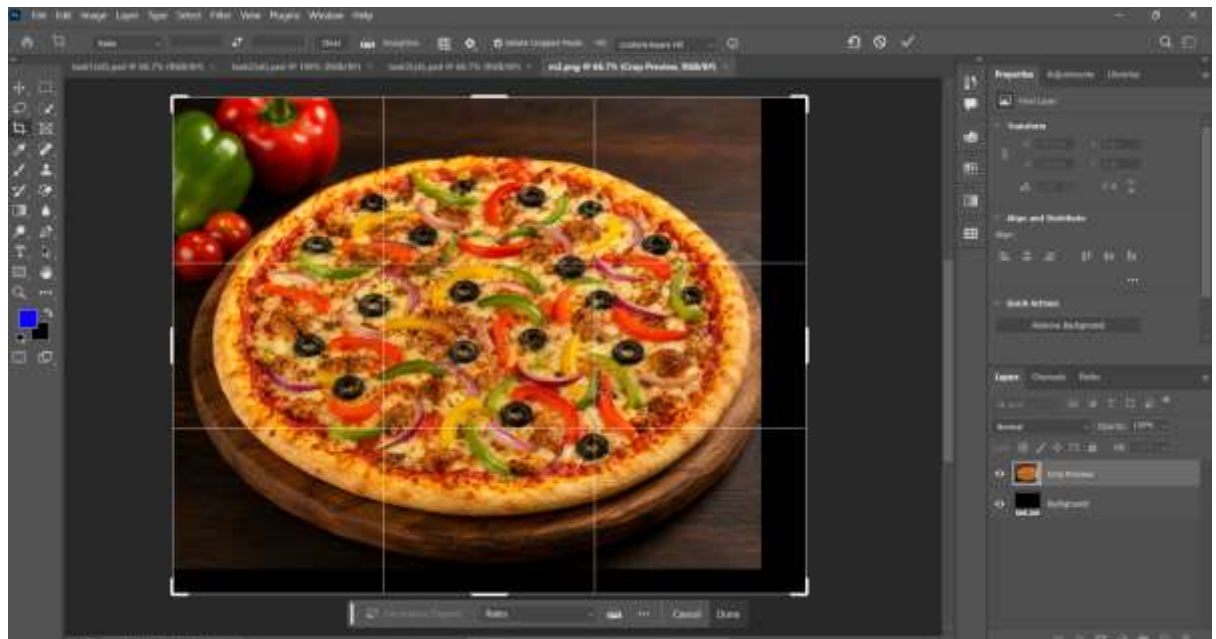

Task 3: Straighten a Tilted Cricket Ground

- I used the Straighten feature in the Crop Tool to level the cricket field and correct the tilted horizon.

Task 4: Content-Aware Crop

- I used Content-Aware Crop to extend the image background while keeping the food item centered.

Task 5: Crop Out Unwanted People

- I cropped unwanted people from a group photo and enabled Delete Cropped Pixels to permanently remove the discarded image areas.
